

## LOVE & WATER

There may well indeed be another planet in the Universe with high mountains and streams of pure, fast-flowing water, but we do not know that for a fact.

There may also be other beings in the Universe capable of *Love* and *Compassion*, but also that we do not know for a fact.

*Love* is like *water*: wherever it is there in abundance, life flourishes;  
And *water* is like *love*: wherever it is wasted, polluted, blocked or dammed, we not only abuse Earth's defining essence, but also somehow our own.
